

Count On... + 2

6	9	7	5	10	8	7
10	11	10	6	9	11	10
8	6	11	10	7	5	11
5	7	10	8	11	9	8
9	6	6	11	5	7	5
8	9	5	7	8	6	9

Count On.. + 2

A game for two players.

Aim: To be the first player to place three counters, next to each other, in a row, column or diagonal.

Materials Required: 36 transparent counters, 18 of one colour and 18 of another colour.

- Players take turns to flick the spinner and place a counter on a spot that is two more than the number spun. For example, if a player spins a 3, they will add two to that number and put their counter on a 5.
- Play continues until one player has placed three counters, next to each other, in a row, column or diagonal.

Variations

- Allow a 'bump off' rule
- For a longer game play 'four in a row.'
