

# Count On... + 1

	1	5	7	2	4	
4	6	3	10	6	9	1
2	10	8	2	1	7	3
7	8	6	4	5	10	7
9	3	9	1	8	9	5
5	10	8	3	6	4	2

## Count On... + 1

A game for two players.

**Aim:** To be the first player to place three counters, next to each other, in a row, column or diagonal.

**Materials Required:** 36 transparent counters, 18 of one colour and 18 of another colour.

- Players take turns to flick the spinner and place a counter on a spot that is one more than the number spun. For example, if a player spins a 1, they will add one to that number and put their counter on a 2.
- Play continues until one player has placed three counters, next to each other, in a row, column or diagonal.

### Variations

- Allow a 'bump off' rule
- For a longer game play 'four in a row.'
