

# Tangram Template

Here is a 10 cm square Tangram. Many commercial Tangram sets are 10 cm square.

Find free tangram activities at [www.drpaulswan.com.au](http://www.drpaulswan.com.au)

Note: some of the harder puzzles are deliberately smaller sized so that they can't simply have the tangrams placed on top

For a deeper dive into how to use Tangrams in Geometry teaching, see the book **Toying with Tangrams**
