

Tangram Template

Here is a 10 cm square Tangram. Many commercial Tangram sets are 10 cm square.

Find free tangram activities at www.drpaulswan.com.au

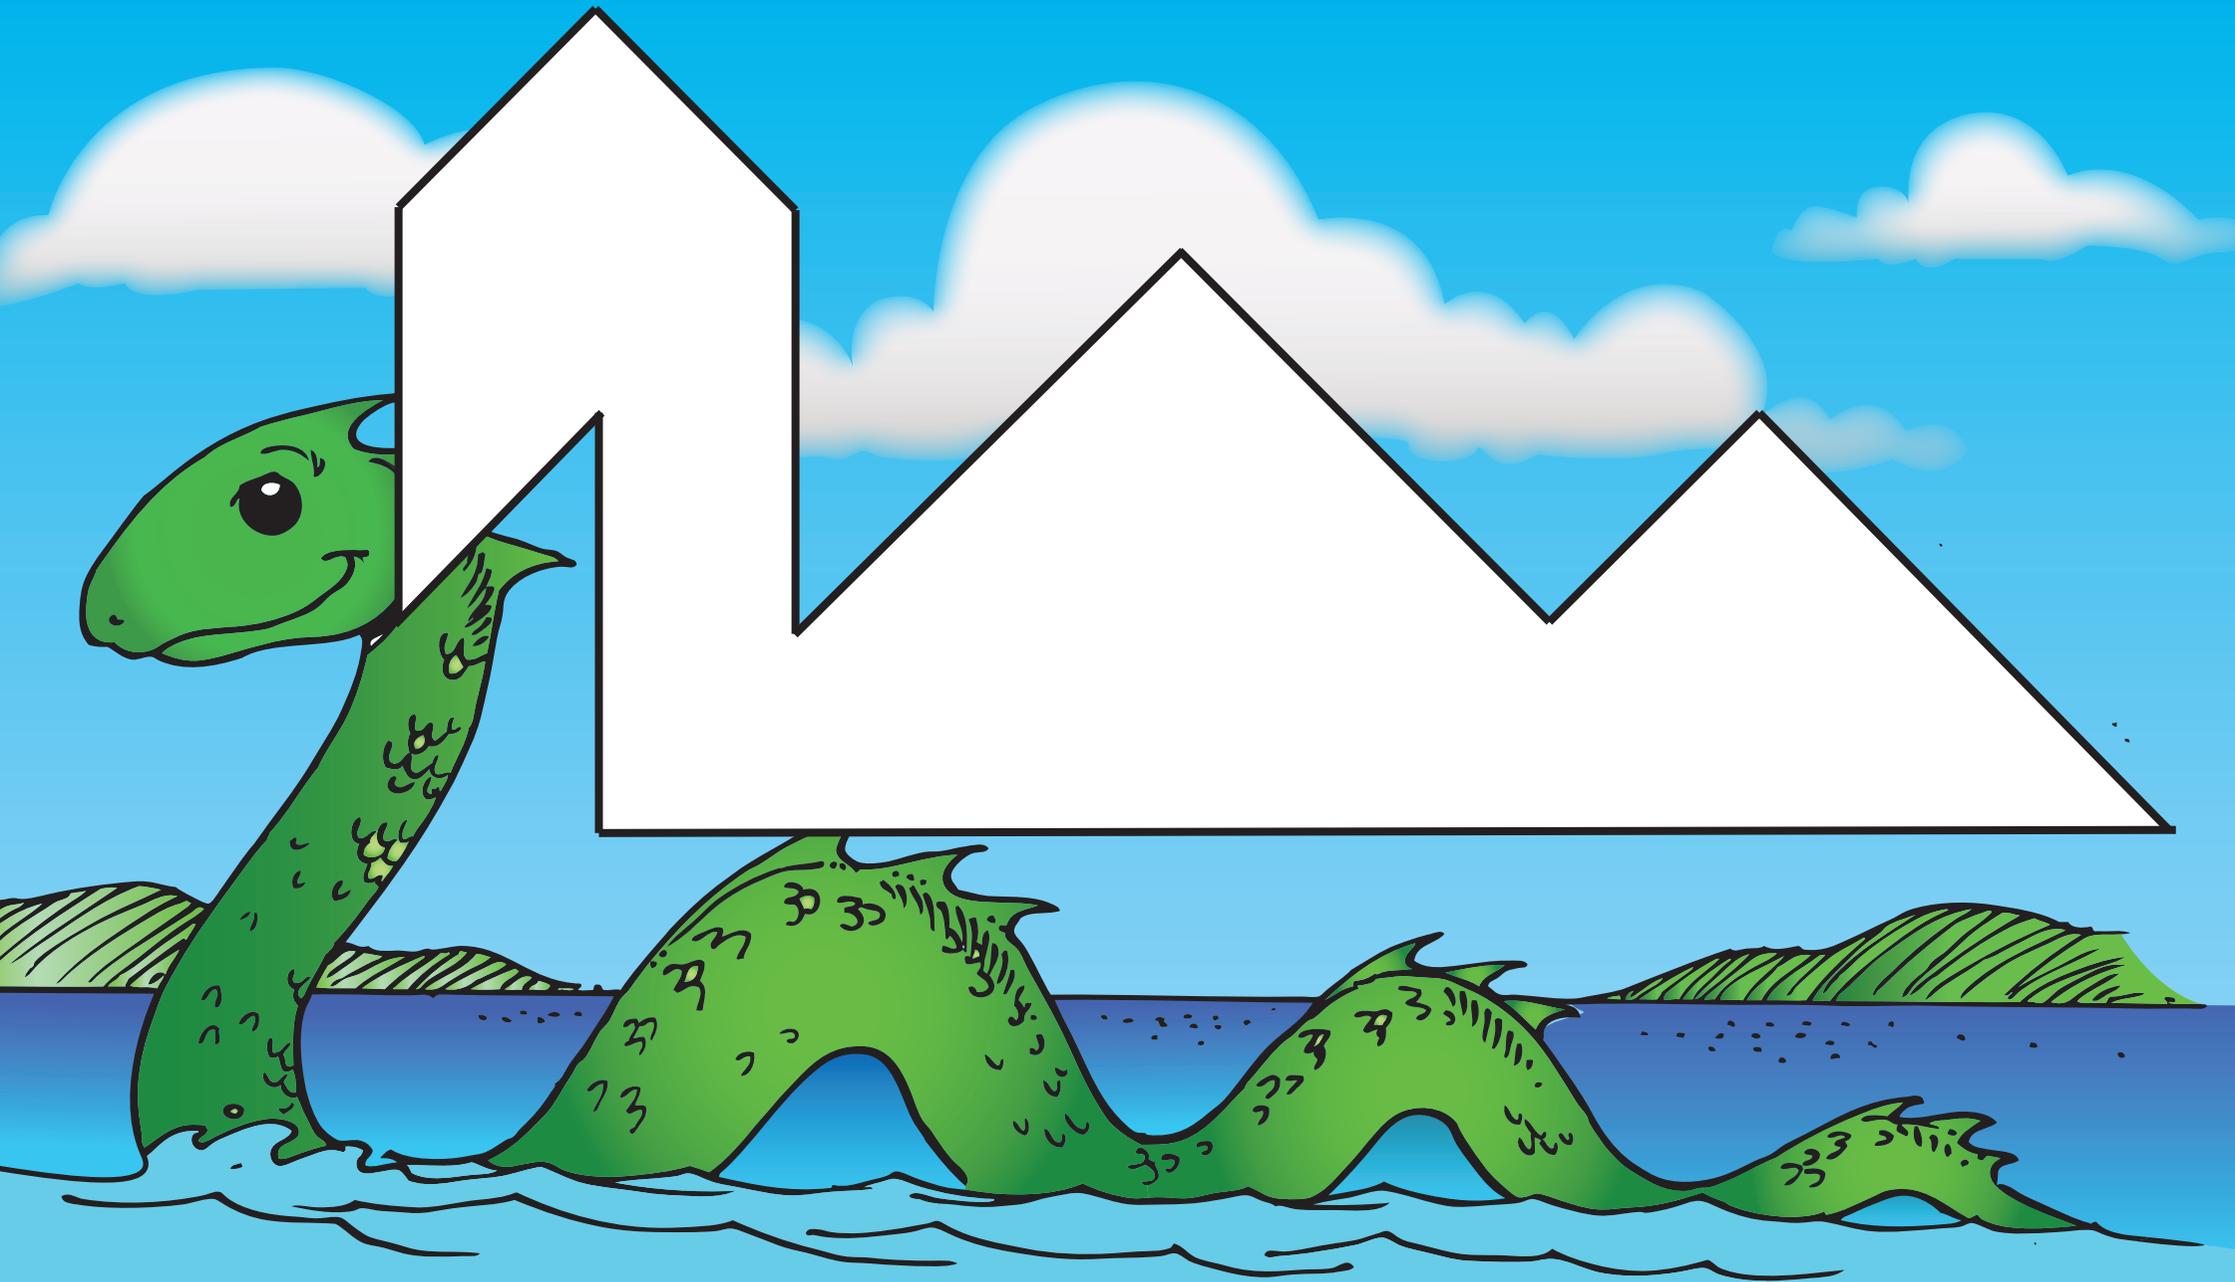

Note: some of the harder puzzles are deliberately smaller sized so that they can't simply have the tangrams placed on top

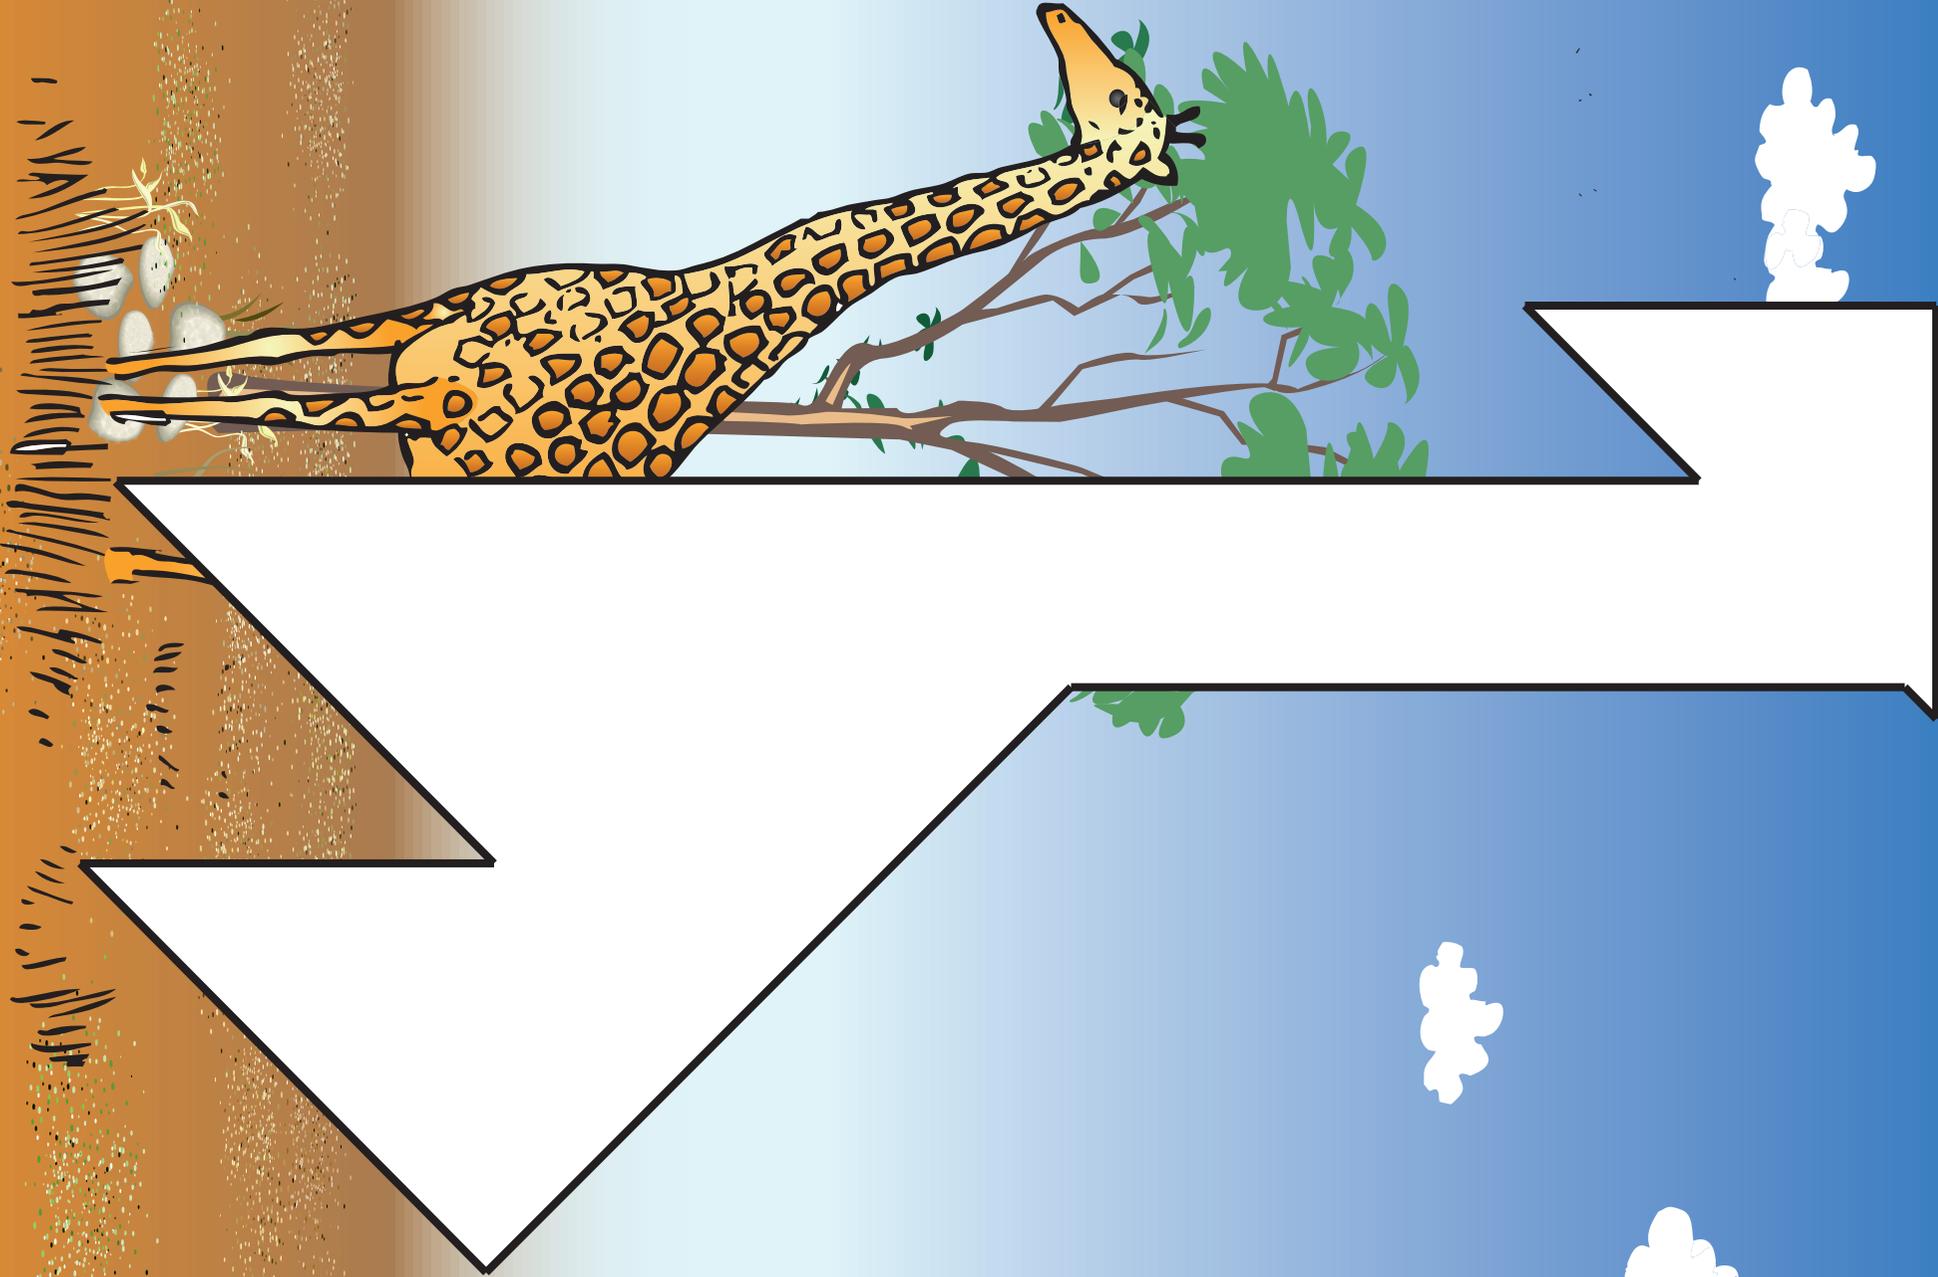

For a deeper dive into how to use Tangrams in Geometry teaching, see the book **Toying with Tangrams**

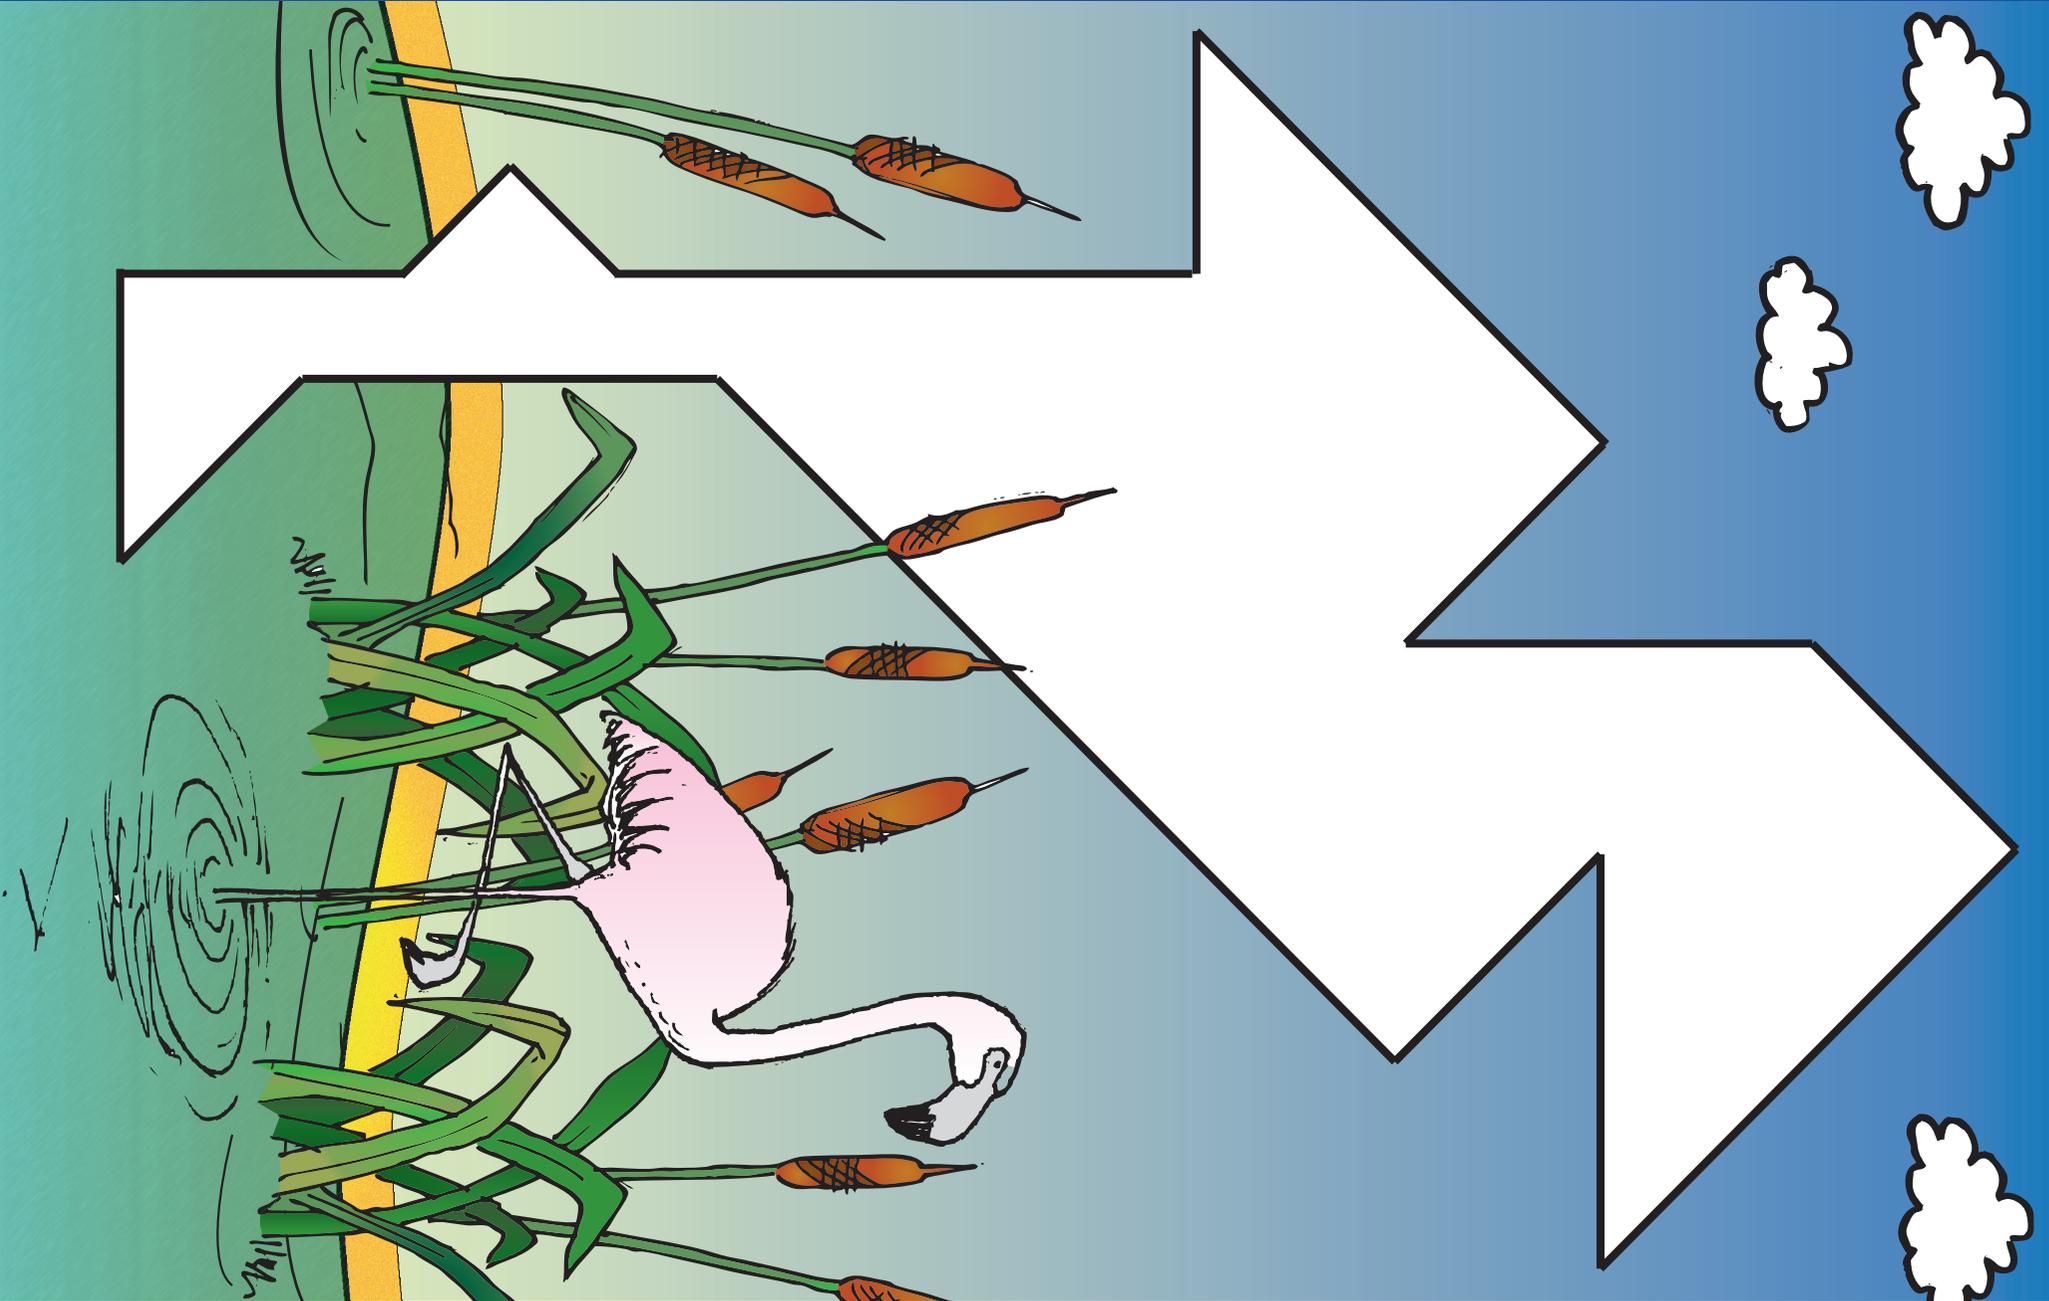

LOCH NESS MONSTER

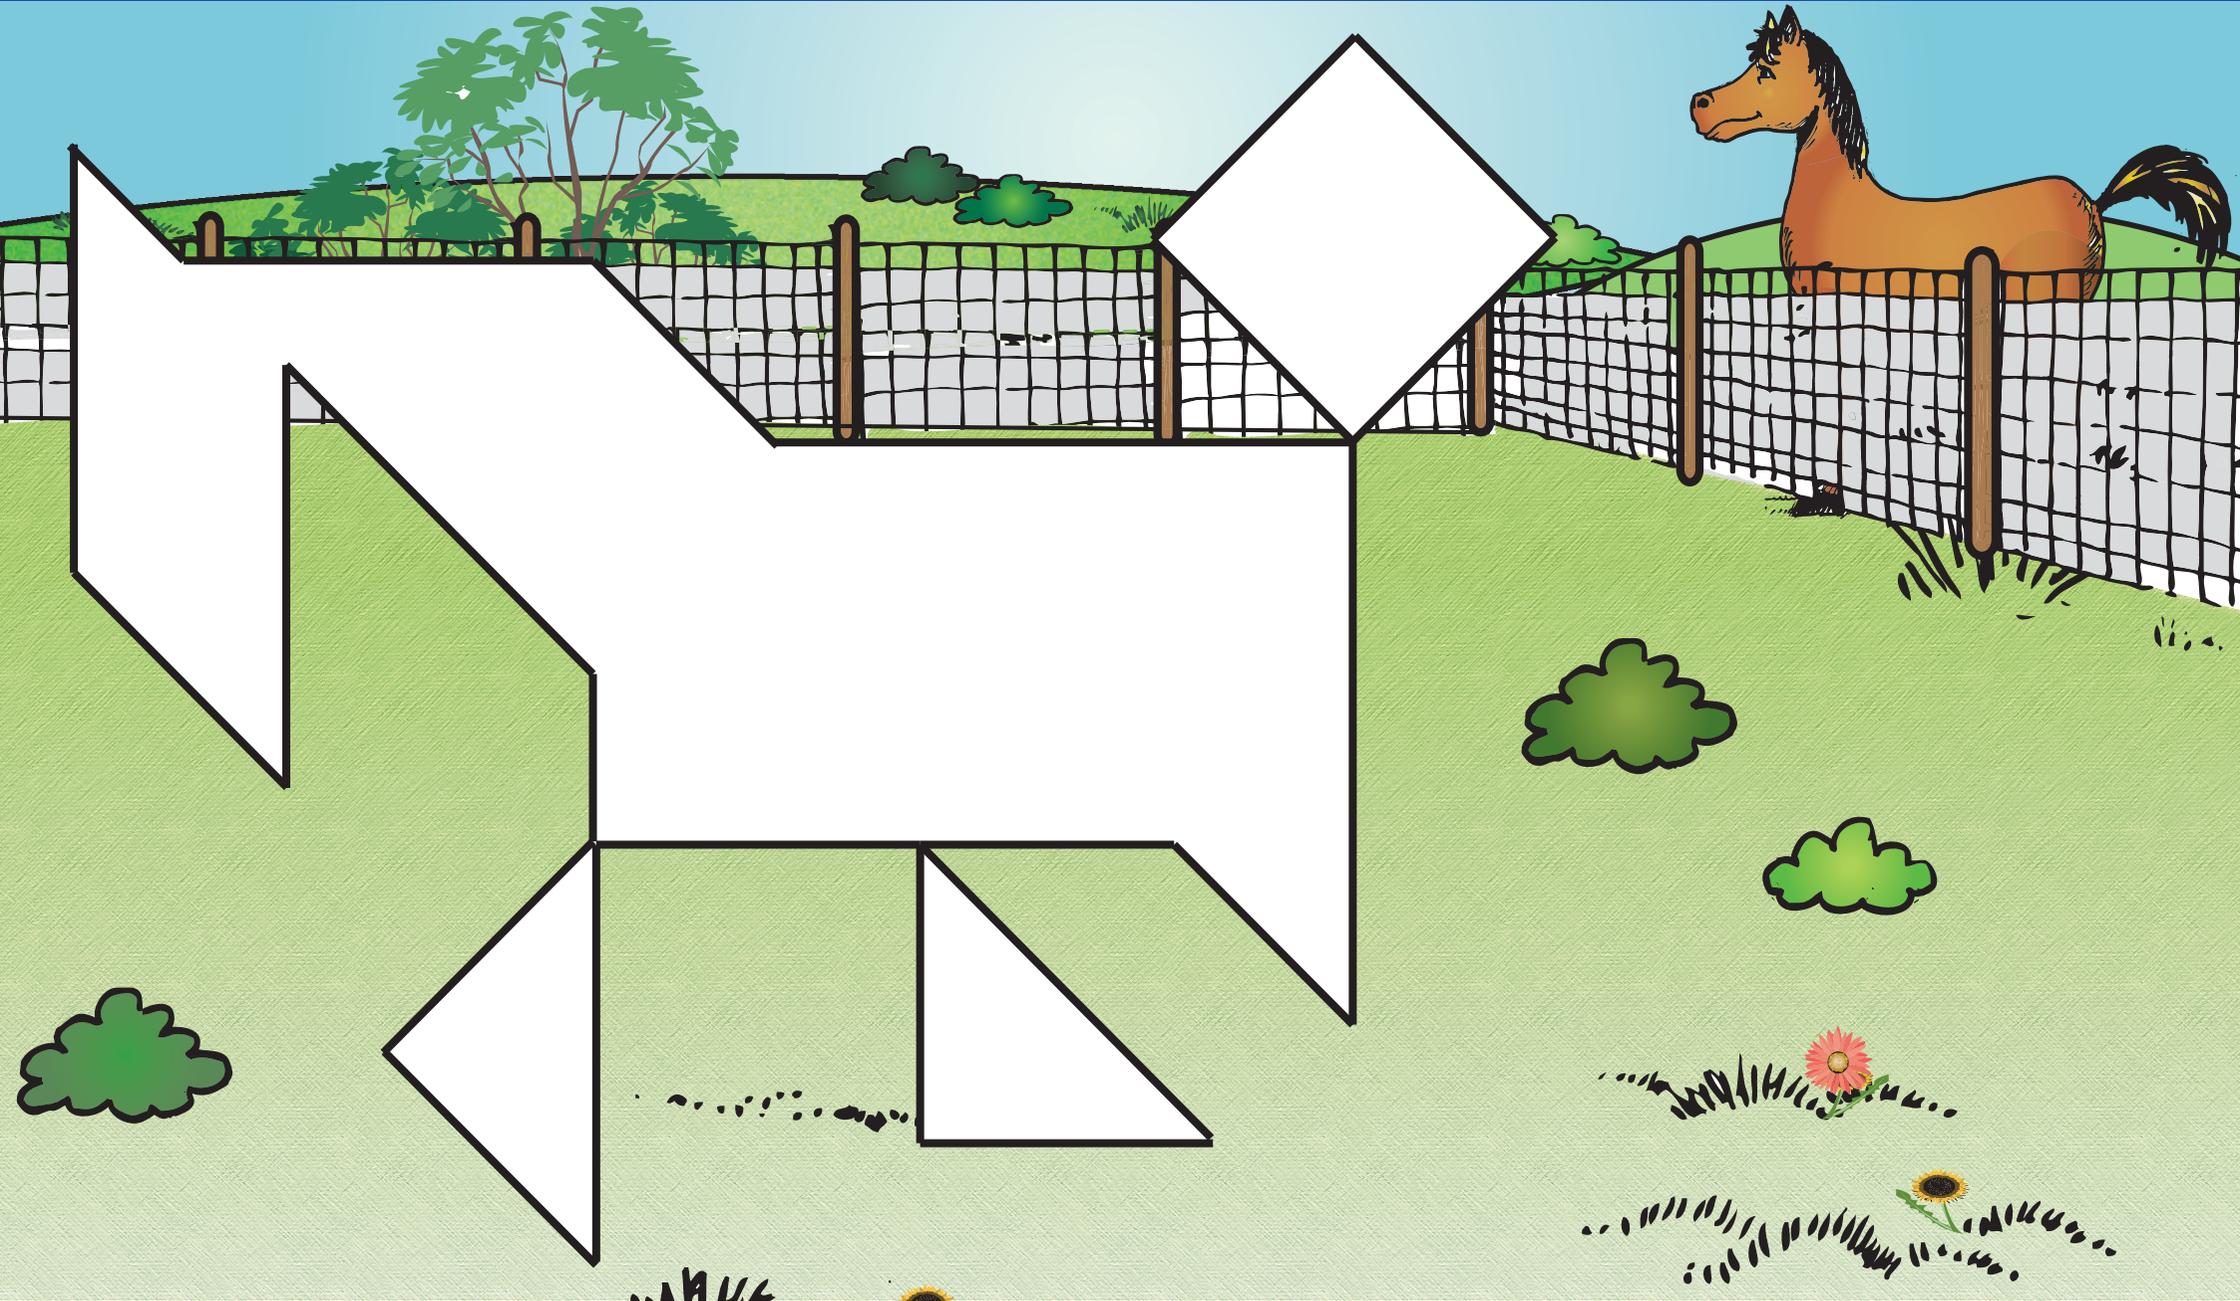

GIRAFFE
